“ I know nothing I can say will bring complete peace. I do know that it gets easier. Your father, from all my memories of him, was a great man. Cliche, but the butterfly effect is at work here. The relationship that you and your father had, Diane and your father had, and the relationship auntie shared with your father...they had an effect on the next generation. Andrew, Kristine, and even myself benefited from the greatness of your father. I always remember the interactions between your mother and father. They were always playful, sarcastic and loving. I remember the steak tips from mass., I remember the liquorish cookies your mother made, more importantly I remember the relationship between you and your father. As a kid, having my father absent, I guess I was hyper sensitive to father son relationships, and I always felt good when you both were around. You displayed exactly what a father son relationship is about. I know, through those interactions, and me observing those interactions...I know I personally became a better man, and father. Looking back, I was fortunate to have been a part of some of those moments. There were two solid father son relationships that I was fortunate to have seen...Uncle Dick and Little Dick, and you and your father. I know we don't really think of things in microscopic terms, but those relationships have helped me with my son. Such little moments, ones that

we don't even take into account, or really bother to cherish...moments that you may not even consider a young child soaking in. However, looking back, I'm not sure I would completely understand what it was, to be a good father, if I hadn't had those interactions with great men. So I know my words will never bring that back, but hopefully you understand how much of an impact, such a great man has had. One that I didn't fully understand until he was gone. Myself and my son are better men because of your father, and more importantly, because of the man he helped you become. I love you uncle Rocco. -Shane

“ Oh, Diane, while I never met your father, I always thought of him as my buddy. At Winnacunnet I was cafeteria monitor and also your English teacher. I will never forget you nor your father's response to a note I wrote eons ago...
Your dad had spirit. So do you. And he lives on in you, lucky lady. Of that I am convinced.
