“ From kenneth robert

Dana and I were best of friends when he lived in North Hampton. We both attended north hampton elementary school. We had great fun exploring the cellar of his barn. We would jam crab apples into our pop guns and blast away at the huge spiders. The little sun room at the end of the barn was our command post. We both were in cub scouts and our mothers shared times being den mothers. Dana's mother made the greatest fudge. We both loved going to the blue and gold banquetts. I loved watching his sister Sherrill ride by my house on her horse, cindy?.I truly miss you dana and will remember you all ways ☺

Dr. Fiske was just a phenomenal practitioner, super bright and exceptionally well versed and skilled in his field. He made countless lives better through his tireless devotion to his patients. He was a dog on a bone to get it right... His retirement was a huge loss to the profession - and he made the world a better place, he was exemplary!
