“ I went to HS with David, then college one year before we rotated out of Maine. Dave was so smooth, an intellectual, easy going I never saw him mad. He called me from El Paso once and I wished I had made an effort to get out there to see him and his family because Dave was truly a good man. He was great at baseball, a good student, and apparently a good father and husband. I really wished I had kept up with him; he and I connected well and in many ways shared some important benchmarks in life.

Once we were in the woods and he saw bear poo and I couldn't get out of there quick enough. He and his dad showed me beaver trapping.

I could tell stories only he and I knew; rights of passage....i really enjoyed hanging with Dave. Best wishes to family and if ever need be get in contact and I'll help.

“ David liked to try new recipes all the time. He would send some home for my husband to try as well. The more opinions, the better. I tried the jerky he made around the holidays- I can see why James and Christina likes it so much! When I arrived to clean, David would give Echo,Alexa or Amazon the order for country music. He probably got tired of my singing with the music- that was a good time to go to the Post Office! I have enjoyed my time with you, David.You were agreeable to ideas and solutions when I had a bright idea
