“ *Another thought that has been rattling around me head...*

Back in the days of high school and just after Dave, Douug and I worked on quite a few different projects together (usually with Phil as well), such as different bands and the movies I previously mentioned. I used to have a silly title for our little troupe, Dave Squared and Douug too (or Dave² & Douug 2) and now I've realized we're no longer squared...

I also had the idea that if the 3 of us started a company or something the obvious name would be 3D. Well, we've lost a dimension and now our perceptions are a bit askew.

Afterglow by Genesis
Like the dust that settles all around me,
I must find a new home.
The ways and holes that used to give me shelter,
Are all as one to me now.
But i, I would search everywhere
Just to hear your call,
And walk upon stranger roads than this one
In a world I used to know before.
I miss you more.

Than the sun reflecting off my pillow,
Bringing the warmth of new life.
And the sounds that echoed all around me,
I caught a glimpse of in the night.
But now, now Ive lost everything,
I give to you my soul.
The meaning of all that I believed before
Escapes me in this world of none, no thing, no one.

And I would search everywhere
Just to hear your call,
And walk upon stranger roads than this one
In a world I used to know before.
For now Ive lost everything,
I give to you my soul.
The meaning of all that I believed before
Escapes me in this world of none,
I miss you more.

“ I, of course, have been listening to nothing but Rush this week and once I came across one song they one section of the lyrics seemed appropriate. Considering he was the reason we got back into playing music together, the main driving force of trying to write new material and did most of the actual work in regards to our weekly practice and the recording of the 2 songs we did finish this is only fitting:

*"You can be the captain
I will draw the chart
Sailing into destiny
Closer to the heart"*

from Closer to the Heart by Rush

Dave and I and Chip Brindamour did that song in HS for a lip sync contest and Im pretty sure we got 2nd place to the Blues Brothers. Do you remember that Dave M? I wanna get that video. I was Neil and Dave Alex and Chip Geddy.

I do have a vague memory of that John. I want to say that was '86 or '87... Maybe '85. I think the year after you guys did it I joined Douug Upton and others in the contest doing Wasted Years by Iron Maiden. I would love to get a peek at all those old "performances" at the very least!

“*Dave was a man of integrity; I only knew Dave during Carol Shea Porter’s first race for the House, but I would say that he was one of the people who made a real difference in her ability to win that first race. His computer expertise was invaluable. Dave cared passionately about his country and state and wanted to see it in good hands. He was a man of no wasted words, so when he gave his opinion, I listened and appreciated what he had to say. Too young to be called away, he’ll be missed. I feel fortunate to have known him, even for a short time.*”

“ *I first met Dave in the early nineties when I was in a band with his good friends Dave Mills and Phil Clute. Right away I was struck by his intelligence, his goofy sense of humor, his intimidating musical knowledge and ability, and his big heart. He was the kind of person who instantly put people at ease. I'll never forget hanging out with him at Dave M.'s house all those late, late nights with pot after pot of coffee and meandering but captivating conversation. Or the time I went to his and Mary's apartment and was basically indoctrinated in the ways and wonders of Mystery Science Theater. Oh, and Rush. Lots and lots of Rush. We drifted apart for a number of years but were able to get together again and make some music several months ago. My time with him was regrettably short but I am truly grateful for all of it. I will miss him.*

My deepest sympathies to all of his friends and family. Love and peace to all.

“ How could I leave out cruising the strip down at Hampton Beach in the Cutlass?!

Worse, how could I not mention our catching Rush in Providence?!!! It was my first time seeing them in concert and we went down early to make it more of an event or whatever. Well, we were walking around the arena hoping to get a glimpse of the guys before the show and we notice this guy that worked there poking his head out the door. Long story short for some cash from us he let us in. We quickly climbed down the bleachers behind the stage to the main floor area and were almost immediately spotted by security! This lead to a mad dash under the bleachers along the sides while Geddy Lee was playing a section of Tom Sawyer on the keyboards over and over trying to get the right sound. We had our very own chase theme! It was amazing and we had a blast. I rarely hear that song without that scene coming to mind.

“ I am so sad to hear that we lost Dave. We were friends since 1980 when we lived at Presidential Circle. He was a great man and had a huge passion for music. My fondest memories were working playing street hockey after school, working at Lomazzos and listening to Rush. I am so happy that he was able to be so successful in the music industry. He will be missed by everyone whos lives he touched and paths he crossed. My condolences go out to everyone, especially his family. John Fowler

“ I had the pleasure of working with Dave when he reported to me for over 8 years at IBM. His automation skills were impeccable! I keep thinking of all the good times with my 1-on-1's with Dave and how his wittiness (with that smile on his face) always kept my feet planted on the ground with all those crazy releases we had... AND that's how I will continue to remember him.

My condolences go out to his wife Mary who I also know from IBM and his family.

“ So many memories to share... so hard to say anything.

I had known Dave for.... wow, almost 30 years! I have to remember to thank our mutual friend Phil for becoming friends with him our freshmen year of high school and introducing him to me, because otherwise I would have missed out on so much. All the bands he introduced me to... All the movies and weird humor... All the hours playing in so many different versions of bands together, mostly along with Douug and Phil. The countless HOURS at Friendlys drinking coffee and talking with an ever rotating cast of friends - the simple pleasures of those nights being some of the best of times. Trips to Canada! His humor and wit and intelligence. Making our two movies, GSR Unearthed and GSR Video Pieces! (Again, Douug and Phil right there with us.) All the time spent playing with video cameras and VCR's and going from one house to another to another for whatever we needed to do to put it together was not wasted. Still will never understand why he recorded over the tape that had all our "music videos" that we used for short clips in the first movie. I want those silly music videos so much!

But it always comes back to music. To me, it is who and what he was. Even with all the other stuff that he was so talented at it still comes back to music. I'm am so glad he called me a couple years ago to see if I would be interested in trying to play together again. I am so glad to have been able to play with him and Phil again especially since I hadn't even seen my own drum set let alone play in over 10 years. (Thank you for re-sparking my love for playing!!!) I am glad we got to sit around most Monday nights to practice cover songs and work on our own material. So glad we got a couple of songs recorded, even if they aren't quite done in our eyes (or ears as the case is) because there is always some little bit of tweaking to make it better...

But I am so sad and angry that there will be no more. No more laughs from him. No more long talks. No more music...

I will miss you my friend

“ *Not long after arriving at UNCA 24 years ago, I was walking through the courtyard of the student center and spotted a long haired chap sporting a Rush t shirt and having a smoke. "What luck!" I thought. "A fellow Rush freak." I immediately went over and introduced myself. Turned out we were both in the same major but just hadn't met yet. Dave became the first true friend I made in college. A smart, funny, level-headed, talented guy. We didn't get to see each other much after college (Tennessee/New Hampshire) but we always kept in touch and exchanged tunes. I was just getting a new batch ready to send to him. I'll play them for him anyway.*

I owe my love of Rush (as well as other bands) to him and remember the radio interview that he called into when he was at UNC to talk to Geddy. I will never forget that he "wanted to say 'Hi'" to us when he was on the air which, if I remember correctly, prompted Geddy to do so as well. We were pretty stoked to say the least.

“ *Dear Family,*

I am so sorry to hear of the loss of your dear loved one and send you my sincere condolences. The passing of a loved one can leave us feeling lost and heartbroken. But I've found very comforting words in God's word, the Bible. At Psalms 55:22, God promises to sustain those who throw their burden upon Him. God will also do away with death all together as brought out at Revelation 21:4. The bible also holds out the hope of a resurrection of those who have fallen asleep in death at Acts 24:15. May Jehovah, the God of all comfort who comforts us in all our trials (2 Corinthians 1:3,4), comfort you in your time of need. Heartfelt prayers are with your family.

“ *One Summer night, Dave, Millsy and myself, were sitting on the wall at the north beach.*

The moon was out and lighting up the waves. The question came up of what was causing the waves. Millsy suggested a gigantic paddle under the water (almost a Dr. Seuss feel to it.) I said it was the ghosts of old pirates returning to land (absolute gibberish really.) Dave just mentioned how the gravitational pull from the moon would raise the level of the tide, the waves came just from the motion of the water. (Right on the money.) Maybe a silly story, yet Dave always had the ability to level things out, say it as it was. That's something I'll really miss.

“Seventeen years ago, I met Dave online through a Rush message board (the Canadian rock band, not the outspoken pundit) when we were both looking for kindred spirits to play music with.

We met in person on his 26th birthday, when he drove to my house to see if we would be a good musical fit. Within a few hours, we had co-founded a band, Electrum, and I had found my musical soulmate.

Over the years, we scrapped, edited, and argued about much more material than we published together, but I have no regrets, and I do not think he would either. Those precious few hours of recorded music, and all the laughter that went in to producing them, will keep him alive within me.

Many longstanding inside jokes between us often revolved around the band that brought us together, so it is appropriate that I publicly say goodbye to him with the lyrics from one of their songs, *Afterimage*:

"Suddenly -
You were gone
From all the lives
You left your mark upon

I remember -
How we talked and drank
Into the misty dawn
- I hear the voices

We ran by the water
On the wet summer lawn
- I see the footprints
I remember -

- I feel the way you would

- I feel the way you would

*Tried to believe
But you know it's no good
This is something
That just can't be understood*

*I remember -
The shouts of joy
Skiing fast through the woods
- I hear the echoes*

*I learned your love for life
I feel the way that you would
- I feel your presence
I remember -*

*I feel the way you would
This just can't be understood..."*

It's hard to picture him without a smile - unless it was an incredulous raised eyebrow or two in reaction to a not-so-good idea. And even then, he would still sneak in a smile and a firm, but kind, correction.

He mentored so many people over the years and was well-respected. He gave me a copy of his CD *Abstract Expression* that I have and will always treasure. My husband and I were in awe of his recent video. He was just such an amazing talent. He was a nice person, kind and had a gentle way about him. I was always so happy to see him when he ventured down from NH to the office in MA.

Back in the day when Guitar Hero was popular, he came to my house for a team party. He watched us play, probably humored by it all and how terrible we were. We egged him on as the musician to try it. Of course he was able to play it. The funniest thing, after about 5 minutes he picked it up and played it over and behind his head, Hendrix-style. We all about fell on the floor laughing.

I met Dave while working on Carol Shea-Porters 2006 campaign. He worked long into every night back then setting up vital communications systems. It wasn't long after we met face to face that I figured out that he (like me) was a dedicated guitar player. So Dave and I had two common interests. After the last election Dave told me that he was going to "re-dedicate" his time to guitar and writing. I knew just what he meant. If you are seriously committed there is never enough time to develop your skills. It pulls at your soul and eventually you decide to "carve out" the time come what may. Dave's latest work reflects that-- and the last video he made also highlights his kind heart. He dedicated it to the music teachers who touched his life. How generous! That was Dave.
