“ *There are so many wonderful, fun and silly memories. Growing up on Lincoln Ave and Salisbury Square was a lot of fun, we also had the farm that abutted the neighborhood. There were a lot of first, but the one that stick out in my mind was Denise's parents buying a big bucket of Kentucky fried chicken, (which was the first time I ever tried) and Denise carrying the bucket to the front steps to share with us and I swear that bucket was almost as big as she was. She was knee high to a grasshopper then, sharing, caring and smiling even back then. R.I.P. Denise, ... May your family find comfort.*

“ Me and Denise met 23 years ago and hit it off right away. We became very good friends. She always made me laugh . When we worked together at the Rvna we would talk on the phone at least once a day, unless Denise got frustrated with work she called me through out the day. She always said she needed to vent and that was me. But I didn't mind I enjoyed talking to her. ill miss our daily calls. i will miss her very much she was such a wonderful person. All her patients loved her she made friends no matter where she went and always had a beautiful smile on her face. she was the most amazing person I ever met.

“ I didn't see Denise often enough...but the times we were together she always had me laughing. She found humor in most situations and the good in most people.
I was always impressed on how Denise and Walter brought two families together...and made it work... as one.
Denise was an angel on earth and will continue to be an angel in heaven.

Eight years ago you walked through my front door, into my life to assist me. Seeing you 2 to 3 times a week we quickly became friends. You were always the bright light of my day. We enjoyed many conversations and a glass of wine. You made my life and so many others so much better. All though my heart aches I am blessed to to have had you as one of my dearest friends. My thoughts and prayers to your family.

The poem THE DASH was recently shared with me . (Please take the time to read) It refers to the dash between between date of birth and death being how we live our life, and the importance of that . Denise's dash was filled with love , hard work and the sunshine she brought into your life. May we pay tribute to Denise by living our dash in the manner that she lived hers . Knowing her , whether at RVNA or socially was a gift .
