“ *Jack was one of the very first people that I met when I visited the Shipyard in 1969 for job interviews. After that first meeting, we worked in close proximity to each other for many years. I have some very fond memories of Jack, including more than once when he provided me with some very sage advice. My sincere condolences to his family. Rest in peace Jack.*

“ Back when I was younger maybe 5-6 my bampy who you all called Jack used to take me to Ollie's cafe and coffee shop. We would get a cookie and sit on the curb and count the certain color of car that he let me pick that day. He used to give me his little life advice and tell me stories. And we would even sometimes go and get ice cream after, but "don't tell your mother". I will cherish every single memory and wisdom he gave me. Forever and always ❤️
