“ *So many great and formative memories with Jack - touring colleges in DC (even though I ultimately went to his Alma Matter UNH), pushing to the front of the line to see John Kerry, seeing Angie be sworn in as a State Representative in Concord, and of course the many summers working at the Hampton Beach parking lot. I can truly say that Jack helped inspire that career path I chose and continue to grow in and for that I am forever thankful. Sending so much love and sympathy to Jack's family.*

“ Jack was an old friend of mine, a classmate at UNH. I spend many a good time with him and his first wife Helen, one of my best friends. I even visited them in England in 1964 when Jack was stationed there. We sure enjoyed the pubs. Remember fondly the fine and fun times we shared. I still communicate with his daughter Sue.

“ So many memories. Always with a joke, a story, a smile. He was an infectious optimist that made me believe he would live forever. I am comforted that I was able to see him recently and share about our families. He loved his family more than anything. My condolences to you. I can see him with Angie in heaven, they were two of a kind.
