“ My name is Jodi Lamb . I have been employed at Exeter Hospital since October of 1994 in the Cardiology Dept. as an EKG technician I came to know Dr. Riedell as one of several doctots who interpreted EKGs in my department. I always looked forward to the days when he would come in to read and we would talk about skiing(a great passion we both shared, and about family. I remember mentioning to him one day that he reminded me so much like my own late father. His mannerisms, his laugh, his expressions. I had such great respect for him and will miss him so much. His contributions to Exeter Hospital will always be cherished and never forgotten.
