“ *As we look forward to our 60th reunion of graduation from Winchester High School, Judy is one of a few friends I considered a friend in high school. We met as freshmen and she was in several of my classes. I had just gotten my first pair of glasses and I turned to her for help getting used of eyeglasses - I admit I was a bit vain even at the age of 13 - but that was the beginning of a very nice friendship through high school. I've thought of her and a few other friends as I look forward to the reunion. Thank you for sharing this information with the people in charge of the reunion so I could visit her through you, her family, and many other friends she gained during her life.*
