“ *He drove us miles into Nh and Vemont to camp and to go fishing. Years later he finally took my advice on largemouth Bass, plastic baits Dad. I ended up being the teacher. I know he loved it. I can show you the pics. Dad loved fishing with his sons and his nephew Sidney. Sidney is a man of wisdom, in my eye he is so much like Dad, A little to much wisdom not enough fishing....*

He was one of the most knowledgeable people I knew and didn't mind sharing his knowledge always kept me interested in conversation

I always enjoyed my visits with him. He was a very interesting man and we could talk for hours...and we did! He had a vast knowledge on every subject. We shared a lot of laughs too about so many things.
