

Philip Berton Nudd

April 2, 1946 - October 27, 2022

Ossining, NY - Philip "Bert" Nudd, 76, of Ossining, NY, passed away peacefully on Thursday, October 27, 2022. He will be sadly missed by his family and those who knew him at Atria on the Hudson where he was living at the time of his death.

Philip was born in New York City in 1946 and grew up on Long Island where he enjoyed activities with his friends and trips with friends and family. He attended the University of New Hampshire, Renasslaer Polytechnic Institution and the Polytechnic Institute of Brooklyn where he received his Bachelor's Degree in Electrical Engineering. After service in the US Army, he earned his Master's Degree in Finance from Long Island University.

Philip lived a quiet life in his bachelor apartments. He was a licensed professional engineer who first worked for the Long Island Lighting Company and later for the New York Power Authority as a systems engineer. He enjoyed spectator sports, keeping up with politics, solo walks in New York parks, and traveling with family around the US and other countries. Perhaps uncharacteristically, he enjoyed driving a Mazda Miata sports car on his local excursions.

Philip is survived by an older sister and a number of cousins. Face to face visits were infrequent in his later years as none of his relatives reside in New

York State and his health made traveling difficult. Phone calls and emails were frequent however, and the interaction will be very much missed by family and especially by his Ohio based sister.

Services will be private and Philip will be buried beside his parents in Hampton, NH.
