“ Rick got very creative late in his journey and much to the chagrin of Linda’s kitchen table. Model cars, pipe collections and painting. He sent me a pic of something he was working on. I loved it and sent him to task. I asked him for a beach scene... York Beach. He researched, toiled and lamented over it and produced the unexpected piece you see below. He mustered up the strength last summer to come with Linda and I to The All America for the unveiling. My reaction was as much a surprise to him, as his to me. Each of us had been so afraid the other would not like it..and my tears showed how much I literally loved it. To boot, He found just the right frame too fir \$10 which he was tickled by. It was a great day... and it sits upon my living room mantle proudly.

I I see you noodle dancing amongst the bears across whatever galaxy you’re traveling...pats beanie on your head, decorative cane at your arm and pipe in your hand??? Enjoy the ride and Rest In Peace.

We will take good care of Linda. Promise.
