“ *I graduated from Mt. St. Mary Seminary high school in Nashua with Sally.....way back in 1956! She always added so much to school life. Her creative side was blooming during those days and we had lots of fun working on many projects, especially at Christmas time. May she rest in peace. My sympathy to her family.*

“ *I grew up at the beach with Sally and all her family, and her brother Biff was one of my best friends. My wife, Mary, and I visited her usually once a year in the summer on a beautiful day overlooking the ocean. She had a knack for creative art, a great smile, and friendly spirit. We both are sorry she is gone but have happy memories of our times together. Bless you, Sally. Jim County*

“ Sally was one of the most creative and spirited people I have had the pleasure of working with over the years. I would often see her car parked at her house in North Hampton while I was out on a bike ride and stop to say hello and catch up. We would trade stories of travel and the good old days. She had the habit of dropping off handmade Santa Clauses made out of Birch trees during Christmas time. I would always get a laugh out of seeing them mysteriously appear on my desk at work, with no name attached as to who the sender was. Instantly I knew. I returned the favor to her one year and she responded with the most interesting Thank You card. At my doorstep was a beach ball and a note written around the ball. Great memories, she will be missed but her spirit lives on in all of those that she made contact with.

“ Sally was so adorable...she made my day every time she walked through the door at the North Hampton Post Office. Every day she inspired me with her thoughtfulness. I have several white birch Christmas deco...I am lucky to have been one of the recipients of her inspirational "balls"! When I became Postmaster of Newfields a few months ago...she came by to see me and tried to drag me back to North Hampton :)...literally! The best part of that visit was the big laugh and even bigger bear hug. I will miss her but know she is happy and pain free now! Spreading her smile with all the angels and looking out for all of us.

I will miss her. My prayers are with all her family members.

“ A miracle, the doughy christmas ornaments we made together lasted almost 40 years? I remember when you lived with us for a year at 285 Dudley Street in Brookline, Mass. You attended graduate school and experimented with many crafting sessions in the kitchen. Once, you invited me to write my name out - I sounded it out and wrote it out with a green crayon, C-H-A-R-O-L-E-T ; you informed me kindly, I really needed to learn how to spell my name, ... thanks for telling it like it is! It took some practice, but I got it Sal. Beyond childhood, your creative inspiration, time, attention, connection, your love of a good time and a good cause, your L-O-V-E itself has been an influence and deeply appreciated over the so many years.

p.s. It figures , based on other accounts of your wild creations, that you would be the only individual I ever crafted a 3-D card for, with wave-able wands, and stabilized by a sea side rock, featuring the seahorse tattoo's we sported during your last weeks.

You will be so well remembered! Thank you! <3, C-H-A-R-L-O-T-T-E

“ *Sally was a dear friend to many of us in the Rye area. She once made me a very special birthday ball that she signed with many inspirational messages and try to place it in my mail box but was unsuccessful. I found this ball hanging from my mail box with a long string and I could only think of one person who would do this and that was Sally. She will be missed by many.*

*Sally was one of a group of "girls" who were once members of the Seacoast Newcomers. The 16 or so of us shared birthdays and dinners regularly. Sally was always doing something special for anyone of us. She always had a smile on her face and a story to tell. She was most generous to us all. I will cherish the ice skate filled with Christmas greens which I place on my door each Christmas. She loved to craft and to share what she created. We will miss her so much. Lois Laurence*

*It has been a long time since I had contact with Sally but if I was at the beach I sometimes rode by the Marcotte home & would think of the times my Mother picked her up to take us to dancing class at Mount Pleasant school in Nashua as I was only 22 days older than her. Her father was my Doctor for awhile. I am sorry that I did not stop to say "Hi!". My sympathy to the family. Carolyn Josephson Fluke*
