“ *Met Tim at Davis Electric as a parts counter guy, I never new him personally outside of Davis, but always a nice person when I walked in and helpful, he had dry sense of humor and a mellow way about him. I always admired his 59 Imp as his license plate read & never thought he would ever part with it. Very shocked and saddened to hear he passed and he died too young. Glad to have the memories. RIP Tim*

“ Tim was full of old school knowledge, respect and patience. Even as a green mechanic kid going into Davis electric for parts tim treated me as an equal and an adult and I will always remember him for that. And that sly smile he would give you when you came in covered head to toe in grease just knowing you had been busting your knuckles on a wreck all afternoon was priceless. If you were trying to cobble mis matched parts together that didn't quite belong or find bits for a 70 year old machine he was the man. So many memories of Tim, Hap, and the Evans at Davis in the good old days when fixing cars was fun. Tim helped keep our farm running with his skills and won't be forgotten.

“ Tim was a great guy. He was well respected in the auto repair field and many mechanics relied on his knowledge and experience. He was one of the best. We all went to Tim when we needed the right part , right now . Friendly and smart.

He would often say “If you give the right information you will always get the right part” a solid steady guy, he will be missed.

“ So sorry to hear the loss of Tim, he was a great friend we meet at the races, really enjoyed his knowledge of racing. It's not the same attending races and not seeing him there or sitting next to him. He will be missed dearly.
